**Close the Velcro Strap to prevent the Ipad from slipping out**

## BT Keyboard Case

---

Place the case to a comfortable position

### Step II Turn the keyboard on

On the right side of the case, there is the charging port, the power switch and the bluetooth button.

## **BT Keyboard Case**

---

**\*The built-in lithium battery will support 120 hours continuously typing when charged. You should charge the keyboard with the USB cable coming in the kit.**

**\*Turn the power button on and you can start to use the bluetooth keyboard.**

When the power is on, the light on the right top of the keyboard will flash in blue color for a few seconds. When it is recharging, The other blue light will be on.

**\*If this is your first time using this keyboard, you also need to complete the following step.**

### **Step III Pair the Blurex keyboard to your Ipad2**

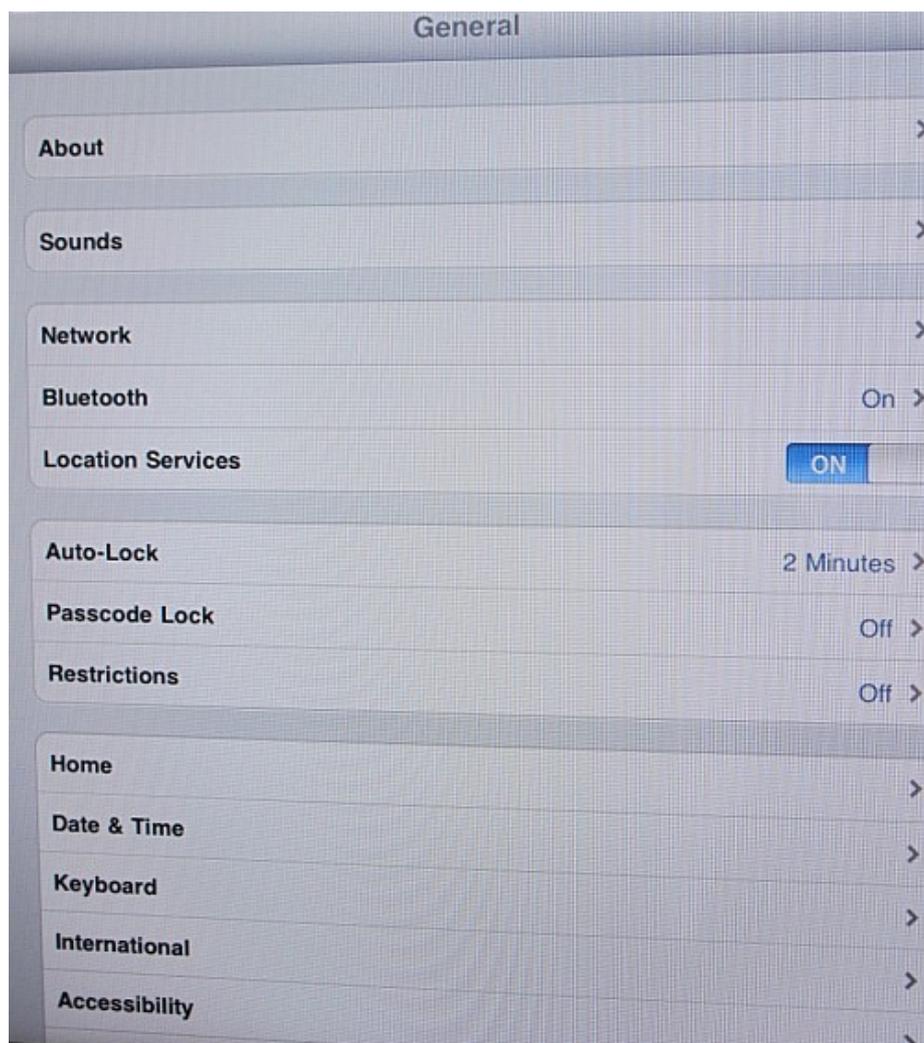

**Press the pin size Button to send the bluetooth signal.**

## BT Keyboard Case

---

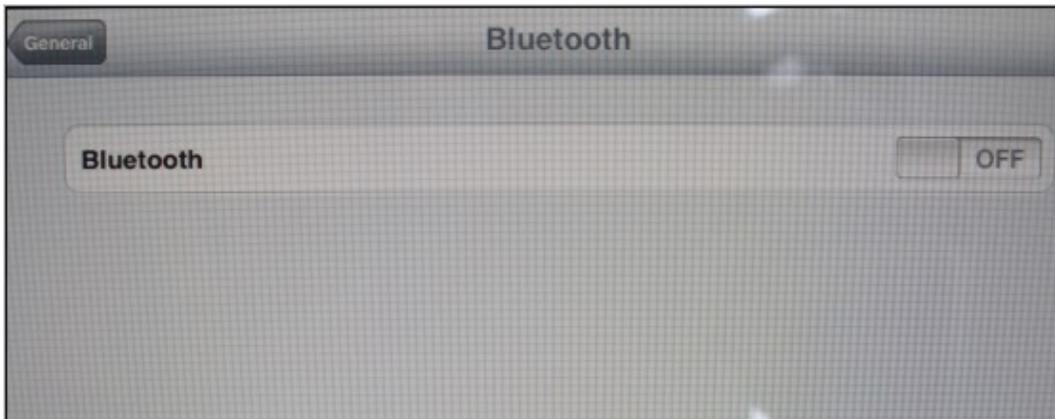

Turn your iPad on, and tap “Setting”

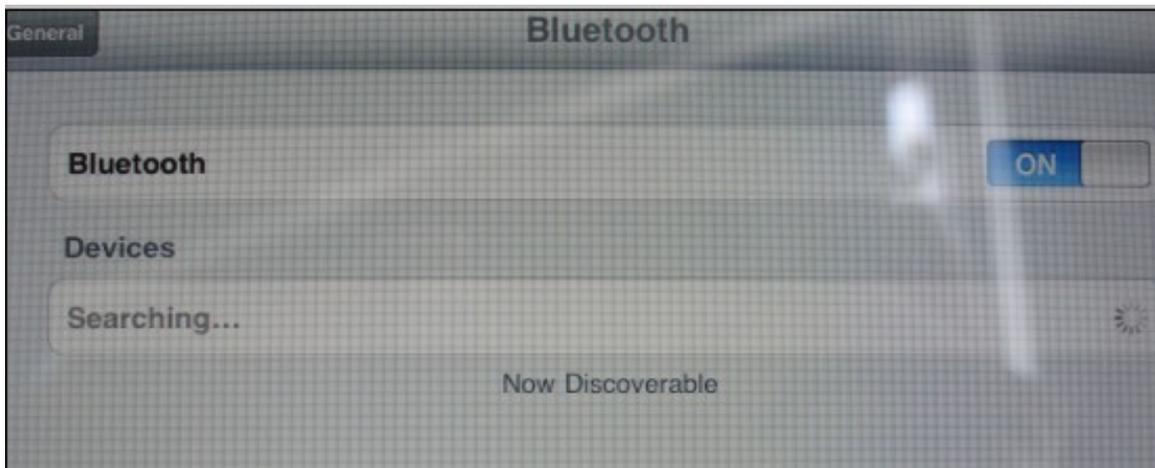

## BT Keyboard Case

---

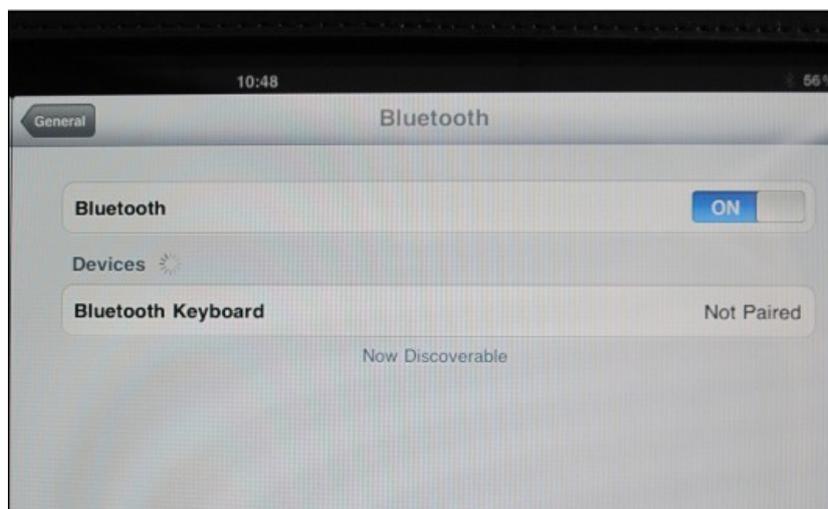

Tap “Bluetooth”

Slide the button to the “On” position and your Ipad will start searching for Bluetooth devices

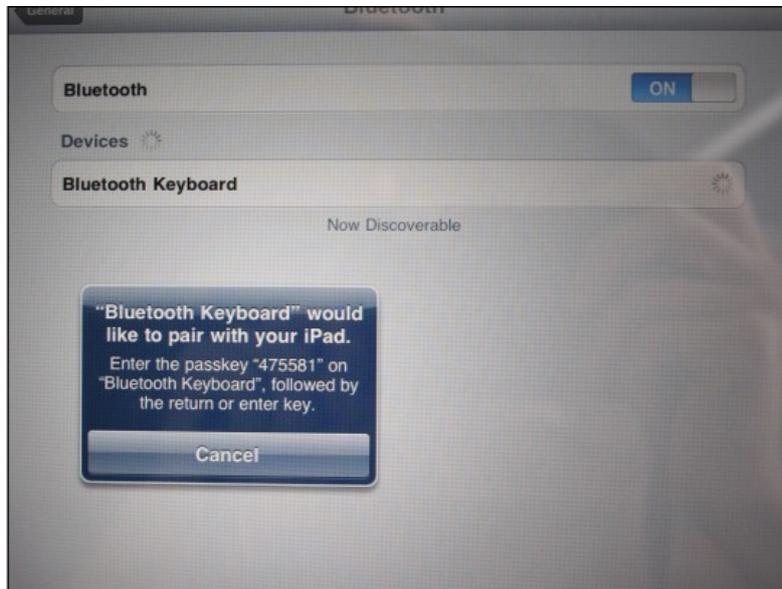

When it finds the bluetooth keyboard, tap the “Bluetooth Keyboard” option

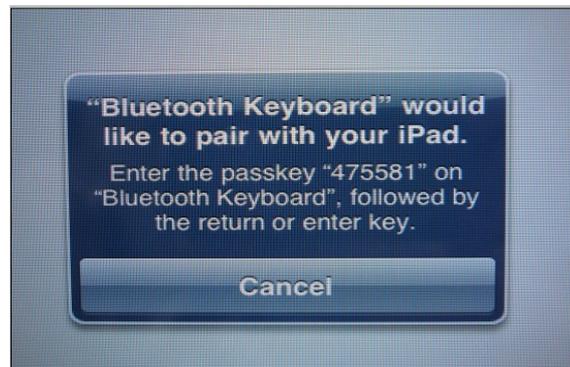

## BT Keyboard Case

---

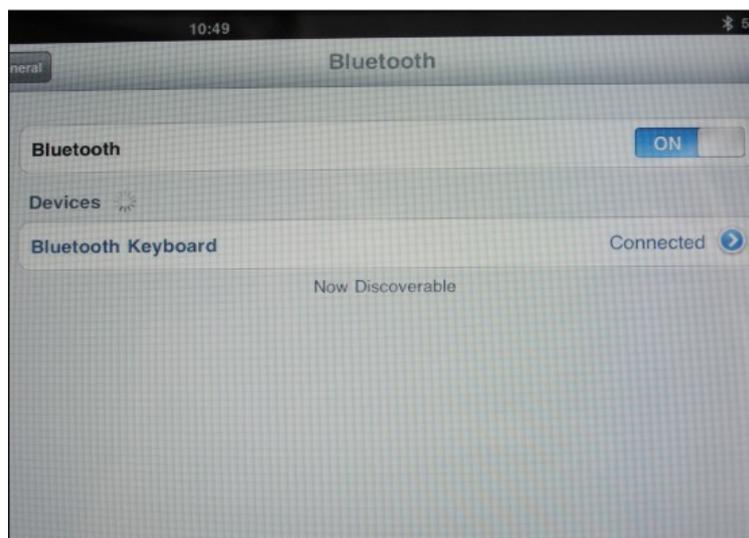

**A blue window with a 4 digit code will appear on your screen**

**Enter the passkey into the Blurex Keyboard and press the “enter” key**

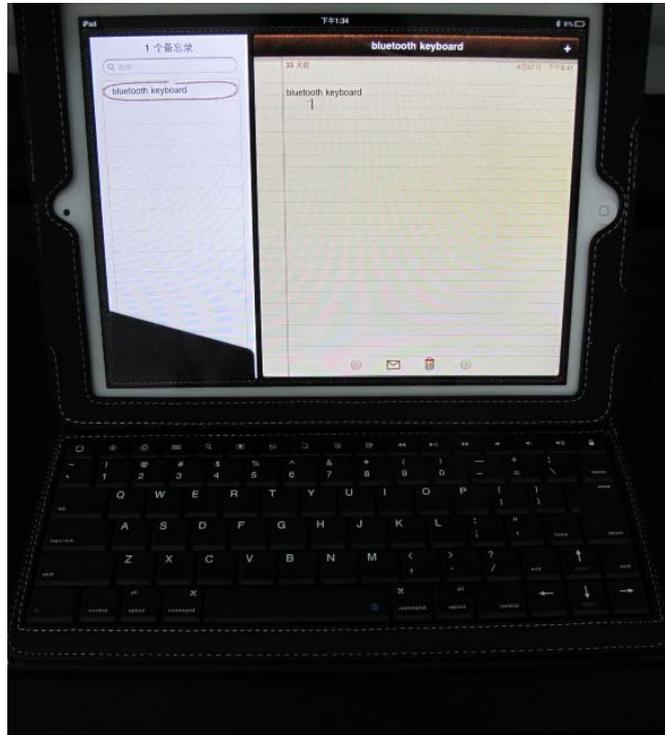

**The Bluetooth keyboard is now successfully connected to your Ipad**

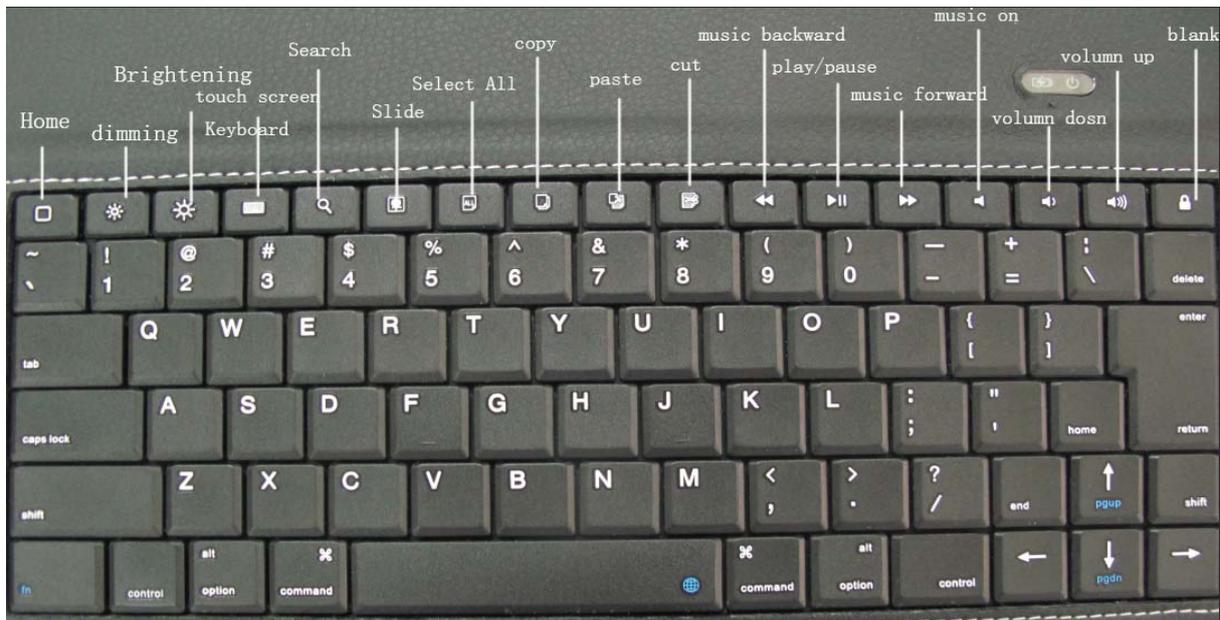

## BT Keyboard Case

**Step III is only needed for the initial setup. After your first successful connection, the keyboard will connect automatically to your Ipad when you turn the power on. You may need to tap on the keys to wake it up from hibernate mode.**

**Charging period:** 4hours (For the first time, please charge for 12 hours)

**Duration of Charged battery:** 45 days

**Weight:** 478g

**Dimension:** 25.2cm\*3cm\*20cm

### **Trouble Shooting:**

If you are unable to connect the keyboard to your Ipad, please try the following:

- Check if the battery is low. When the battery is low, some keys will react slowly and even won't work. Then, you should charge the battery.
- Check the power switch, make sure it is on. When it is on, the power light on the right top of the keyboard will flash for two seconds
- Restart the Bluetooth switch, make sure your Ipad can find this device
- Ensure the password for pairing is correct.
